## Seward & Kissel's Recruitment Program

---

Seward & Kissel relies heavily on our summer program for our hiring needs. The primary goal of the program is to provide summer associates with a realistic, broad-based experience, through hands on experience while working on substantive work assignments, and attending meetings. You will also become acquainted with our attorneys through our mentoring program, training sessions and social events. While we encourage summer associates to spend time in each of the major departments of the Firm, the program is flexible and can be adapted to meet the specific interests of each participant. Our Washington, D.C. office affords its attorneys a more focused experience concentrating solely on our Investment Management, Corporate Finance and Capital Markets and Regulatory practices in the context of a collegial, small-office environment. A key feature of the program is to provide summer associates with extensive feedback on their work, including formal and informal evaluations throughout the summer.
